A. Losers after the allowance as the distance grows
Worst-case share of losers, %
Distance from the reference, % of the distance between the two references
Independent reference
Persistent reference, κ = 0.10
Worst case without restrictions
Claim: at most 10% lose
claim breaks at 5.8%
B. Incidence by cell at 5% distance
Worst-case share of losers, %
Independent reference
Persistent reference, κ = 0.10
Stable part-time
Fixed-term
Intermittent
